Subject: Stockroom fire exit blocked / wet floor - Peckham

Daniel,

I am putting this in writing as we discussed on the shop floor this afternoon.

1. The fire exit in the stockroom has been blocked by promotional cages since the weekend delivery. Staff cannot open the door fully. I moved two cages. There are still four in the way.
2. This morning two colleagues (Keisha Mensah and Tom Reid) slipped near the loading door. There was standing water and no wet-floor sign. Keisha went home. I completed an accident book entry.

Please confirm the cages will be cleared before tomorrow's opening and that a risk assessment will be done. I am not prepared to leave the exit blocked.

Aisha Patel
Store manager, Northbridge Home Peckham
